## ELAP V-120 Hoist

(120 kg)

The ELAP V-120 hoist has been produced to provide a cost effective solution to the loading and unloading of power chairs and larger scooters into the boot of MPV's. Its universal fitting allows for easy transfer into different vehicles. Loading and unloading is simple and effortless and totally safe using the wired or wireless handset.

In the Majority of MPV's the V120 mounts to the existing floor latches when the rear seats are removed with no holes to drill. When mounted the V120 still leaves room for 5 passengers in most MPV's like the Chrysler Voyager.

Device	ELAP V120 - Hoist
Device code	V-120
Issue Date	07/07
Revision no.	1

# Technical

## Hoist Specifications

Overall Length	1200mm
Overall Width	1200mm
Platform Size	690x1200mm
Finish	Stove Enamel paint
Mass	83kg
Mounting	fixed luggage area
Buttons	Handset Device
Colour	Dark Grey
Hoist Type	Motor driven

## Scooter/Power Chair Specifications

Max Length	1170mm
Max Width	660mm

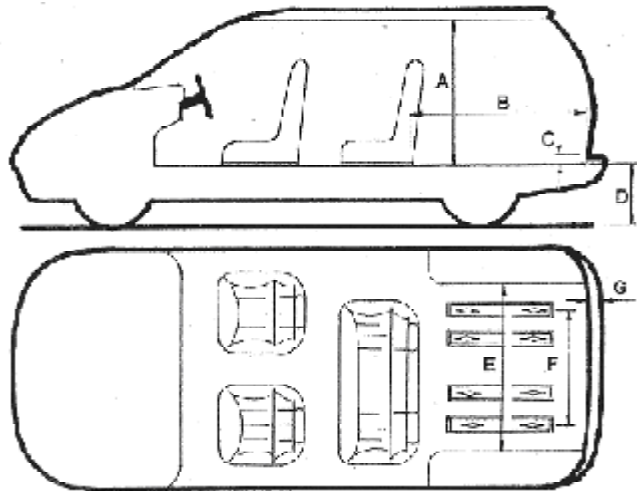

## Vehicle Specifications

A:1020mm Min. floor to ceiling
B:1020mm Min. inside edge of door sill
C:100mm Max sill height
D:660mm Max floor of vehicle to ground
E:1220mm Min. between wheel housings
F:1140mm Max. Between floor latches
G:330mm Max. edge dr sill to outside bumper

## Electrical

Operating Voltage	12V
Control	Handset Device
Handset	Remote coiled wire Or Wireless

<b>Fitting</b>	Universal
