 ● *Two guard angles available* ● *Premium spring loaded pedal* ● *Anti-Slip Pedal*

Quick release  
 Left Foot  
 Accelerator  
 Premium Drive  
 QR/LF1P

The Elap Quick release left foot accelerator Premium Drive is an upgrade to our existing left foot accelerator. In addition it offers a spring loaded accelerator pedal to ensure maximum acceleration can be obtained and also provides a choice of two guard angles to ensure optimum protection.

A left foot accelerator is a simple yet effective adaptation that provides operation of the conventional accelerator pedal using the left foot. This is positioned to the left side of the brake pedal. The system is neatly designed and is extremely simple and quick to 'click' in place and remove to allow for conventional unobstructed driving.

Device	Q/Release Left Foot Accelerator
Device code	QR/LF1
Issue Date	06/05
Revision no.	1

# Technical

## Physical

Overall length	280mm
Handle length	105mm
Mass	660g excl bracket
Hand	Left or right
Mounting	Under steering wheel
Mounting screw	M12 special
Connection type	Fixed
Connection to pedal	Steel tube/bar
Position	Substantially horizontal
Colour	Black
Finish	Leather handle
Other	2 n/o buttons available

## Conformance

EU Driving Code	25.04
-----------------	-------
