load and
unload
your

mini
scooter or
wheelchair
into the
boot of
your car.

**ELAP V-40
40kg Hoist**

Elap V-40

Scooter/Wheelchair Hoist

simplify your life!

Simply put the boom in the vertical position where it automatically locks securely, attach to the wheelchair or scooter and press the button to load !

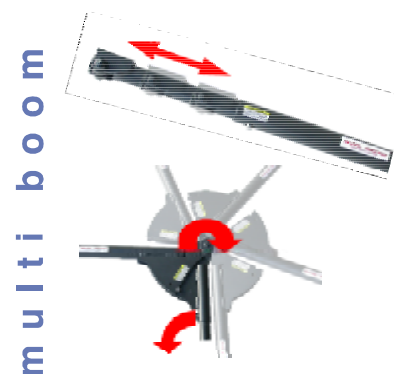

The ELAP V-40 hoist has been produced to provide a cost effective solution to the loading and unloading of wheelchairs / mini scooters into the boot of saloon, hatchback and estate vehicles including MPV's. Its universal fitting left or right handed design simplifies the fitting of the unit. Loading and unloading is simple and effortless and totally safe since the boom is locked automatically when positioned vertically.

Simple to use

The Elap hoist is simple to use and provides you with a safe and effortless way of loading your wheelchair into the boot of your vehicle. The hoist loading strap is simply wrapped through your folded wheelchair and the up button pressed on the base unit. An optional remote handset is also available should you prefer and lifting attachments for mini scooters can be supplied. Once loaded the arm is effortlessly swung into the vehicle where the load is positioned in the boot. Simply unclip the strap and fold the boom down neatly at the rear of the boot to complete.

Simple idea

Elap have developed the new multi boom as an option which makes operating and stowage of the unit truly simple! Not only is the boom telescopic to help stowage but it can also fold back on itself to save boot space.

Simple to buy

Buying is simple! Just call Elap and we can arrange a local fitter who will arrange fitting with you directly. Alternatively you may purchase directly from us and organise the fitting yourself.

Simply 'No VAT'

Fitting an Elap Hoist into a new vehicle may qualify you to save the VAT on the whole vehicle! possibly **saving you around £2000 !**
