

Designed by ELAP*the original and leading rotating car seat manufacturer*

*synonymous
with
rotating
car
seats*

The ELAP rotating car seat is designed specifically for each make and model of car, thus optimising both the available headroom and legroom. Our expertise and in-house manufacturing and testing of the unit ensure we maintain our World leading position. The unit is available in more than four variants depending on the specific users requirements. Arm rests are available as an option providing that 'security' when necessary and are adjustable in their rake angle. The original seat can be refitted when required and no modification is made to the vehicle.

affords maximum legroom ●

- *Unique design*
- *Armrests available*
- *Advanced 'Pirelli' suspension*
- *Available to convert existing seat in some vehicles*
- *Built in lumbar support which is fully adjustable, even asymmetrically*
